Hi Julie,  
I attached the spreadsheet containing our court requests thus far.

Unfortunately, for the most part, I am unable to access documents from the server. The system crashes 9 times out of 10 depending on the size of the file. We could really use an upgrade, so I can pull up info from Boston's databases (both old and new). This would help not only in light of this current court situation, but also when I am preparing various other reports for the labs. In the past, I have had to ask Kip to email me data as a zipfile.

Sharon

Hello,  
Can you each provide a spreadsheet with the following  
A linelisting of cases requesting testimony since the m\_d decision, date sample was completed, who was called to testify, where, how long was the chemist out of lab, testimony time. Please include pending requests.

Sharon, are you able to access documents on our shared server?

Thx julie
